

Event Report: Polytechnic Social Responsibility “My Hobby is Reading”

By Lim Hooi Peng

My Hobby is Reading program was held on 7th September, 2017 at Tabika KEMAS Taman Mawar, organised by 36 students from Department of Engineering Mechanical. This polytechnic social responsibility (PSR) program was sponsored by Pelangi Publishing Group and Sparkle Precision Sdn Bhd. A reading corner and phonics mural were established in the class to provide a supportive and stimulating environment for children and staff in Tabika KEMAS. Nevertheless, Pelangi Publishing Group has generously sponsored 60 sets of reading materials in Malay and English to foster the enjoyment of reading as a recreational activity for all members in the school.

Children in Tabika KEMAS have experienced a wide variety of books in their classrooms through activities such as mini-lessons, read alouds, book partnerships, and independent reading. Independent reading is crucial to cultivate passion for reading among the children.
